

Interlude: wakeful dreams on African soil

Dreams are the stuff that visions are made Visions beget missions

A sense of purpose

Purpose gives rise to strategy

Strategy shapes designs and launch pads

Design platforms

Upon which action plans are developed

Effective plan implementation

Yields rewarding results

In the end

You are what you dream Dreams that you dream awake

I dream,

Therefore I am.

The more I dream

The more I become.

Our ancestors believed

Behind every hill there is yet another.

One mountain-top experience

Should inspire another...
